Marissa Gaither from NCRC reported the use of GPO funds for acquisition of Skyland has been approved by DHCD and HUD. NCRC is working with DHDC to set up a system to draw down on those funds and should have a system in place very soon. NCRC will re-engage property owners at a.s.a.p. to restart the private acquisition process. The financing delays have affected the original schedule. NCRC is working to establish a new timeline.

NCRC will continue to manage the condemnation process and obtain title to 6 affected properties a.s.a.p. NCRC is also tracking legislation currently in Congress dealing with the use of public funds for projects involving condemnation.

NCRC is investigating different methods to optimize both public and private financing options for Skyland. NCRC is still looking at different options for development but the top priority for the site is still to acquire a national retailer. The community will continue to be involved in the planning process.

The meeting was adjourned at 12:00 p.m.

Respectfully submitted,
