## Message from the President

*Dear Neighbors,*

Do you realize how difficult it is to find something interesting to write about every month? You try it. Well, this month I was just about stumped when I had the pleasure of being a part of this year's annual garden tour. This is the first time I have ever attended a garden tour. Honestly, until I moved to Hillcrest I never had much of a yard to take care of. I owned a little patch of grass about 6 feet by 4 feet that I mowed with a little push mower. I planted some miniature rose bushes along the fence and put out a couple of flower pots with some easy to grow annuals and I thought my little patch of earth looked just great.

Then I got married and we moved to the green capital of southeast. People had nice looking lawns with flowers that bloomed all season. They talked flowers, bushes and trees, a language we knew little about. My new neighbors talked about the lack of real grass in our front yard and asked what kind of weeds were those we had planted? So one of the very first things we had to do was to have our lawn seeded. But I still didn't have the vaguest idea how to go about getting rid of all the weeds much less what to do about the bare spots. The next spring we put down more fertilizer and more grass seed. Still our lawn looked very unhealthy. It took hours of research both on the Internet and with everyone we met in Home Depot, and years of effort before we finally got our lawn to look like a rug. But it was worth both the time

and effort.

Flowers and gardens are another thing. I spent hundreds of dollars on seed and bulbs but none ever bloomed. What was I doing wrong? Finally, two of my friendly W Street neighbors who actually had flowers growing in their yards and voluntarily planted another beautiful garden at the end of our block, had pity on me and started giving me advice. They showed me how to actually get flowers to grow in the red clay of Hillcrest. They introduced me to this wonderful product...top soil...what a difference it made. They gave me cuttings from their yards and the garden. They will never know how grateful I am to them for their help. Every time I drive up to our house, I stop to appreciate the beauty of our well landscaped yard.

This is the theme I saw over and over again on Saturday at the Annual Hillcrest Garden Tour. We as a community care for our environment. We take the time and effort to put on a flower show every spring. There is no more beautiful place than Hillcrest in the spring. Our gardens are just one of the things I really appreciate about our neighborhood. Maybe one month we'll talk about some of the other positive things that make Hillcrest such a great place to live!!! Until then, enjoy!

Hillcrest Community Civic Association**

## Special Feature

### Hillcrest hosts Another Successful Garden Tour

By Kathy Chamberlain

The 14th Annual Hillcrest Garden Tour on June 16 was a great success, with about 100 people attending and enjoying an eclectic mix of gardens in Hillcrest.

On behalf of the garden tour committee, thank you all who attended and made it one of the best tours ever.

Thank you, homeowners, who put your beautiful gardens on the tour, the Dept. of Parks and Recreation whose bus and vans we used, Lt Netter and Officer Myles who helped with logistics, neighbors who helped on the day of the tour, and all the businesses who placed ads in the booklet. A list of these businesses is on Hillcrest's Web site, and will stay there for a year, along with

links to their companies. Please consider supporting businesses

that support our neighborhood. More tour photos are on the Hillcrest Web site at [www.hillcrestdc.com](http://www.hillcrestdc.com).

### Special thanks
