Message from the President

Dear Neighbor,

In my message for the April 2006 newsletter, I expressed concern about littering in the City being an ongoing problem in need of stronger action to abate. On June 28, 2006, Kathy Chamberlain and I testified before the DC City Council in support of Bill 16-666, "Litter Control Administration Amendment Act (LCAAA) of 2006". This bill introduced by Councilmember Kwame Brown amends the "Litter Control Administration Amendment Act (LCAAA) of 1985" to provide that the Metropolitan Police Department, in addition to the Department of Public Works, shall have the authority to issue tickets to persons who violate the District's litter control laws. Even though it was made a part of the record during the hearing that the police already had the authority under LCAAA to write tickets for littering, it was revealed that the police have not written littering tickets in the past 19 years. The foregoing is due primarily to littering in the District of Columbia having been de-criminalized with the establishment of the "Litter Control Amendment Act of 1985. Councilmember Carol Schwartz, Chair of the DC Public Works Committee, and Councilmember Phil Mendelson, Chair of the Judicial Committee, are just beginning to recognize that the current legislation on the books is inadequate for enforcement purposes. Councilmember Brown determined that the current law, as written, is too complicated and should be streamlined to simply state the police shall write tickets for littering and will keep a record by police district of how many tickets are issued. Currently, the Department of Public Works has the primary responsibility for the enforcement of anti-littering laws but don't have sufficient enforcement resources to serve as an adequate deterrent to littering. The over 3500 DC police officers who patrol our streets should be required and responsible for writing littering tickets, same as the police officers in Virginia and Maryland. I encourage members of our civic association to contact members of the City Council to support Bill 16-666, which is intended to make for a cleaner city.. Sincerely, Vincent M. Spaulding, President, HCCA
