Message from the President

Dear Neighbors,

*Christmas is the perfect time to express gratitude for past blessings (and achievements) and to wish friends and family best wishes for a prosperous new year. Reflecting over my tenure as your president for the past 3 plus years and taking a look at the top ten priorities I identified in the Feb 2003 newsletter, I see successes and some disappointments. As I step aside, I am particularly proud of leading a campaign to expand the size of HCCA from roughly 368 households to my goal of 500 households. We actually reached 526 households. I am pleased that we got our by-laws updated and posted on the website and were able to cultivate new leaders to backfill vacant positions and strengthen the operations of the Board of Directors. We devoted a lot of time to safety and quality of life initiatives, economic development, and education issues which have had a positive impacted upon our community. I am very pleased that we were able to keep pressure on Mayor Williams, NCRC, and the Deputy Mayor for Economic Development, to get the Skyland Shopping Center developed and we have been successful in getting the land assembled to allow the project to move forward. I won't attempt to identify any particular HCCA program or event during my tenure, for fear of undervaluing some other significant event, but I must say that there were lots of things that happened which represent good news stories and achievements for the residents of our community. I am disappointed that I was not able to establish regular communications with the presidents of the other civic associations within our community, due primarily to a lack of time. However, I encourage the new president of HCCA to include this matter on her to do list. In order to continue to have a strong and vibrant community, we must remain proactive. We must be tolerant of different points of view on matters that affect our community, and when we disagree we must be able to do so without becoming disagreeable. All points of view should be allowed to be heard, and fully understood. In closing, I sincerely appreciate having the honor to serve as the president of one of the greatest community organizations in the District of Columbia. Having an opportunity to get to know and work with all of the wonderful people who live in our community has touched the bottom of my heart. When my heart is touched, the valve that controls the water to my eyes automatically opens and the water flows, I have no control—it's in my genes, passed on by my father from his father. So at our next meeting, if you see a 65 year old man standing before a large crowd of people crying like a baby, you will know why! God bless you all, and thank you for all of your support and confidence. **Sincerely, Vincent Spaulding, President, HCCA***
